I first began experiencing or noticing interference to reception of Station WAOX on or around this date:
_____, 201__.

I understand that someone has obtained authority from the Federal Communications Commission (the *FCC*) for authority to operate a robot FM station on 105.3 MHz in the Saint Louis area. This may be the source of my problem.

I am very concerned about this. I do not want to lose or have impaired service from station WAOX(FM) due to interference from this robot FM station.

I am not affiliated with Station WAOX(FM), other than as a listener of the Station.

I understand that Station WAOX may file this Interference Complaint with the FCC (with telephone number(s) and email address redacted so that they will not made part of the public record.)

The contents of this Interference Complaint are true and correct to the best of my personal knowledge, information, and belief, under penalty of perjury.
